DRYLAM
Preserve and protect what matters.

ALM3230
AUTOMATIC LAMINATOR

With the Dry-Lam Automatic Laminating Machines (ALMs), quality laminating is simple, requires very little space, and is more affordable than you might think. Just push a button and your ALM3230 automatically feeds, laminates, cuts, and trims digitally printed materials in one pass.

- Ultra-quick warm-up time of 5 minutes
- Automatic single or double-sided lamination
- Adjustable for automatically flush cut or sealed edge trim options; micro-adjustable for precise flush cut or custom encapsulation
- Custom Extended Warranties: Choose the extra coverage that's right for you!
- Cart Sold separately
